CFE Media Announces the 2015 System Integrator Giants Winners

Oak Brook, Ill. — CFE Media announces the 2015 System Integrator Giants. The 100 system integrators distinguished by this award were recognized in the 2016 Global System Integrator Report, and online at www.controleng.com and www.plantengineering.com.

Control Engineering and *Plant Engineering* present the top 100 System Integrator Giants for 2015, ranked according to total system integration revenue for the most recently completed fiscal year. The in-depth analysis of these firms reveals what's going on in the industry, and how it has changed over the past few years.

Integrators are vital to industrial automation growth, especially considering the shortage of engineers in manufacturing. Today's integrators face the demand for consistent coordinated global design, project management, and support. Customers require real-time updates, analysis, and adjustments using new big data capabilities. *Control Engineering* and *Plant Engineering's* System Integrator Giants certainly do their part to provide best-of-breed solutions for global industrial automation.

The top 10 System Integrator Giants according to total system integration revenue are:

Rank	Firm	Total System Integration Revenue
1	Process Automation Solutions (M+W Automation)	\$160,000,000
2	Wood Group Mustang	\$155,000,000
3	Prime Controls LP	\$77,196,194
4	Leidos Engineering LLC	\$69,200,000
5	MAVERICK Technologies	\$68,679,774
6	The Automated Technology Group	\$60,000,000
7	CEC Controls Co. Inc.	\$49,000,000
8	Mangan Inc.	\$44,495,000
9	INTECH Process Automation	\$42,600,000
10	Autopro Automation Consultants	\$40,843,639

See the other firms named for 2015, and prior years, at www.controleng.com/giants.

About CFE Media LLC

CFE Media provides engineers in manufacturing, commercial and industrial buildings and manufacturing control systems with the knowledge they need to improve their operational efficiency. CFE Media delivers the right information at the right time through a variety of platforms. CFE means "Content for Engineers", and CFE Media means comprehensive, relevant content delivered to engineers around the world – on time, on their schedule. CFE is the platform for content, community and applications that engage engineers worldwide to share, learn and increase productivity across all engineering designs, systems, and plants.
